Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone andour servers, then from our servers to your friends device. File is free to use with no gotchas and no hidden fees. We have no file size limit. You don't need any special software installed to be able to download your files. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Just upload the file you want to share with your friends and we send you download link to your file. filehosting provides an easy possibility for you to send large files to your friends. Files transferred the old-fashioned way tend topile up and be forgotten about, eventually costing you money in data storage fees. Unfortunately, we can't make that part free. If only we could, we surelywould!

On the other hand, using file can actually save you money. The cost of that data transfer is covered by your internet service or the data plan on yourphone.

There are no restrictions on the number of times a file can be downloaded. Keep your files private, or send your download links only to friends orfamily. You can upload any type of file (movies, music, documents, images, zip files and more). Files can be downloaded from any computer from our highspeed servers. Any file in any format can be uploaded and downloaded for free. You can give this download link to your friends by mail or instant messenger. Using file, you can circumvent those limits without paying to upgrade your team chat service. This is easy, fast and reliable filehosting! You don't need anykind of premium-accounts. No account or credit card is required to get started. So try our free and simple filehosting service now. Alternatively you can chooseto share your download links on blogs, forums and social networking sites. It is also allowed to link to the download page from websites and communitie
