So try our free and simple filehosting service now. Keep your files private, or send your download links only to friends or family. Files can be downloaded from any computer from our high speed servers. You don't need any special software installed to be able to download your files. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Just upload the file you want to share with your friends and we send you a download link to your file. If only we could, we surely would! On the other hand, using file can actually save you money. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You can give this download link to your friends by mail or instant messenger. There are no restrictions on the number of times a file can be downloaded. filehosting provides an easy possibility for you to send large files to your friends. You decide who you want to share your files with. Unfortunately, we can't make that part free. It is also allowed to link to the download page from websites and communities. Simply upload your file and share the link. File is free to use with no gotchas and no hidden fees. Our service is completely free for everyone. Any file in any format can be uploaded and downloaded for free. We have no file size limit. Why pay storage fees for a file that you just wanted to send to afriend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. You can upload any type of file (movies, music, documents, images, zip files and more). Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is beingtransferred between your computer or phone and our servers, then from our servers to your friends device. The cost of that data transfer is covered by yourinternet service or the data plan on your phone. Using file, you can circumvent those limits without paying to upgrade your team chat service. No
